FIJI BABY by Goodshirt

Vs1

```
D                G          D
When we went to Hamilton I said,
                  G               D
Just pretend it's a holiday and you said,
              G          D     ~ A
Yep, I'll just pretend it's Fiji baby
```

Vs 2

```
D                   G             D
You drive me up the wall sometimes, you say
              G                      ~D
It's better if we spend some time away,
                  G                   A
In the middle of the street something break down.
```

Chorus:

```
      Bm7             G        A              D
So come on now, it's not a race, we'll catch up when the end is near
~G                   D              - A
   Let's fall away and disappear again
```

Bridge:

```
       D   G      A
You're the one I want to say
       D   G      A
That I always want to stay with you
       D   G     A              D
When this world's about to end, you pull me through
```

Chorus:

```
      Bm7             G        A              D
So come on now, it's not a race, we'll catch up when the end is near
~G                   D              - A
   Let's fall away and disappear again          (x2)
```
