Long Ago – Herbs   (88bpm)

```
        |G      |G                |C      |C
Long ago,      ~ was so long ago,
        |G      |G                |C      |C
Long ago,      ~ was so long ago,

          |C      |F                                |C      |C
Close your eyes,    imagine all those memories in your mind
    |C          |F                                  |C      |C
Realise,      the downfall of that time has made you wise.

        |G      |G                |C      |C
Long ago,      ~ was so long ago,
        |G      |G                |C      |C
Long ago,      ~ was so long ago,

      |C      |F                                |C      |C
Every day,      I wake and find you standing there by me      ~ ~ Say!
              |C          |F                          |C        |C
You lost your way,    I don't believe a single word you have to say.    Oh no.

        |G      |G                |C      |C
Long ago,      ~ was so long ago,
        |G      |G                |C      |C
Long ago,      ~ was so long ago,

 |F  C    |G          |F  C   |G                |C          |C
If  I   knew  then,    what  I   know  now,    it's in my mind
                |G        |G          |C          |C
Mmmm in my mind,          in my mind
        |G      |G                |C      |C
Long ago,      ~ was so long ago,

      |C          |F                      |C          |C
Now I know,      let bygones be bygones from now on
        |C          |F                              |C          |C
Live for today,      keep memories in your mind they'd always say
        |C
They say say say

        |G      |G                |C      |C
Long ago,      ~ was so long ago,
        |G      |G                |C      |C
Long ago,      ~ was so long ago,            *Repeat and Fade*
```
