**Verse 1**

~G                    ~D  
 So here I am in front of you, not really knowing what to do  
 ~G                    ~D-----  
 My heart is feeling something new, nervously I turn away from you.  
 ~G                    ~D  
 I see the looks you're sending me, is this the way it's meant to be?  
 ~E7                    ~A-----  
 It's something we should talk about, just give me time to work it out.

**+CHORUS****Verse 2**

~G                    ~D  
 I find your company to be, something completely new to me  
 ~G                    ~D-----  
 Now that I know you socially, obviously I'll fall heavily  
 ~G                    ~D  
 I've seen those looks you're sending me, is this the way it's meant to be  
 ~E7                    ~A-----  
 There's nothing left to talk about, oh, how I wish you'd work it out!
